The Parthenon, Greece: Assembly Instructions

Assembly Instructions

- Mountain fold (dotted line): Make a mountain fold.
- Valley fold (dashed and dotted line): Make a valley fold.
- Scissors line (solid line): Cut along the line.
- Cut in line (solid line): Cut along the line.

Glue:
- Glue spot (Red dot): Glue parts with the same number together.
- Glue spot (Green dot): Glue within the same part.
- Glue spot (Blue dot): Glue to the rear of the other part.

Tools and materials:
- Scissors, set square, glue (We recommend stick glue), pencil, used ballpoint pen, toothpicks, tweezers (useful for handling small parts)

Assembly tip:
- Before gluing, crease the paper along mountain fold and valley fold lines and make sure rounded sections are nice and stiff.

Caution:
- Glue, scissors and other tools may be dangerous to young children so be sure to keep them out of the reach of young children.

Before starting assembly: Writing the number of each section on its back side before cutting out the sections is highly recommended.
(* This way, you can be sure which section is which even after cutting out the sections.)

View of completed model

*This model was designed for Papercraft and may differ from the original in some respects.

Assembly Instructions: Five US letter sheets (No.1 to No.5)

*Build the model by carefully reading the Assembly Instructions, in the parts sheet page order.

*Hint: Trace along the folds with a ruler and an exhausted pen (no ink) to get a sharper, easier fold.

[2] Assemble the steps to the Parthenon.

Glue parts 12 and 16 together using the colored areas.
[4] Assemble the columns and glue them to the steps assembled in step [2] and the roof assembled in step [3].

Glue so that the seams of the columns face the building interior. (The short glue tab faces the front.)

Insert the tabs and glue to the reverse side.

Glue diagonally into the square holes on the four corners.
